SPIRITUAL LIFE

DAY-WITH-GOD FAMILY ORGANIZER

Spending a day (or half day) with God as a family will naturally look different than doing one alone, but the goal is still the same: to **set aside** daily routines and activities, to **rest** in the presence of God, **pay attention** to Him and His voice in prayer, the Word, and reflection, and to **celebrate** God and His work in your lives.

IDEAS TO HELP PREPARE:

Spiritual and Emotional Preparation:

- Ask people to pray for you.
- Pray for yourself and each member of your family, asking God to communicate with you/them during your time.
- Identify current themes or struggles God may want to focus on in your time.
- Identify and pray over potential areas of resistance or struggle related to the day.
- Identify expectations for the day. Bring them to the Lord and offer them to Him inviting Him to use the day as He chooses.

Mental Preparation:

- Tell yourselves it's ok/good to rest.
- Remind yourself who runs the world.
- Be realistic-it may take several times doing this to get the hang of it.
- Keep perspective of what eternal things could be gained vs. what work may be lost.

Physical preparation:

- Get adequate rest beforehand.
- Gather any food and supplies you will need.
- Set up a quiet space or spaces (room, blanket fort, etc.) where people can go to be alone with God.

Distraction free ideas:

- Put a temporary ban on electronic devices.
- Take a break from recreational or ministry/work reading.
- Are there other activities, attitudes, etc. that you want to *exclude*?

Ideas for comfort and enjoyment:

- Ask each family member for ideas on what would be lifegiving for them to include in the day.
- Bibles, pens, journals, craft supplies....
- Good food (prepared ahead), favorite snacks and drinks.
- Pillow, slippers, favorite blanket...

PREPARE

Doing some preparation ahead of time helps us ready our hearts to connect with God. Finding ways to include kids in the preparation can help them feel ownership of the process. Either way, plans and expectations for the day should be communicated to all ahead of time.

By setting some expectations/hopes:

Whatever else you're expecting, expect God to speak with you—be open and embrace His presence, availability, and love for you just as you are.

Every person and family is different, so it will be helpful for you to think through possible distractions as well as the different elements you want to include in your retreat—a suggested schedule is on the back to help you.

- How do you want this day to look different from a "normal" day?
- What things might help (or hinder) being open to God?

Ideas to make our time distraction free:

Ideas to make our time comfortable, fulfilling, enjoyable:

“Children have a spirit, a body, a soul and a social context. These parts of their small but equally important person can be gently directed into a life with God. We are certainly not in charge of this directing...our job as their parents, teachers, and pastors is to open the space for relationship with the living God.”
